

Date: 20 Jul 2022

Circular No. (25) 2022

To: All Agents and Pharmaceutical Companies

Sub: Shortage of Registered Medicines in the Market

Dear All,

It has been noticed from quite some time a number of registered medications are being out of stock in the market and there is shortage of supply of these products.

You are requested to increase the stock of medications to be available for minimum 3 – 6 months in-order to avoid shortage and out of stock situations. You are requested to notify NHRA with zero stock medications and timing expected to be available in Bahrain. Please send your notifications to: info@nhra.bh using the attached form.

Sincerely Yours,

Dr. Mariam Athbi Al-Jalahma
Chief Executive Officer
