

Date:1st November 2022

Circular No. (32) 2022

To All Medical Doctors, & Hospitals

Subject: Medications available and registered with NHRA.

Dear All,

Kindly prior to prescribing medications, please visit NHRA website – under open data – and go through Registered Medicines Price List OR Temporary Importation Medicines List and prescribe from that only.

Moreover, the prescriptions should be written by the active pharmaceutical ingredient name (active substance), strength, and dosage form instead of the trade name in order for the pharmacy to have more options for dispensing and avoid any misunderstanding about the product not being available.

Appreciate your cooperation.

Dr. Mariam Athbi Al-Jalahma
Chief Executive Officer
