Law No. (38) for the year 2009 establishing the National Health Regulatory Authority, as amended by Decree Law No. (32) for the year 2015,  
Law No. (62) for the year 2014 on combating commercial fraud,  
Decree Law No. (21) for the year 2015 on private health institutions,  
Decree No. (5) for the year 2013 on establishing the Supreme Council of Health, as amended,  
Council of Ministers' resolution No. (24) for the year 2016 on issuing a list of auxiliary medical professions,  
Based on the presentation of the CED of the Authority, and  
Upon the approval of the Supreme Council of Health at its meeting No. (5) held on 28/04/2016,

***Decided as follows:***

### **Article I**

The provisions of the Regulation organizing the practice of the fields of complementary and alternative medicine and the professional and technical requirements to license its private institutions, as associated to this Resolution, shall apply.

### **Article II**

The CEO of the Authority shall implement this Resolution and shall take effect from the day following the date of its publication in the Official Gazette.

Chairman of the Supreme Council of Health

**Lieutenant Physician / Mohammed bin Abdulla Al Khalifa**

Issued on: 30<sup>th</sup> Safar 1438 H.

Corresponding to: 30<sup>th</sup> November 2016

# **Regulations on organizing the practice of Alternative and Complementary Medicine and the Technical and Professional Requirements for Licensing its Private Institutions**

## **Definitions**

### **Article I**

In applying the provisions of this Resolution, the following words and phrases shall have the meanings indicated against each of them, unless the context requires otherwise:

**Authority:** The National Health Regulatory Authority

**Council:** The Supreme Council of Health.

**The competent authority:** Health Regulatory Office.

**Alternative and Complementary Medicine:** The diagnostic, therapeutic, preventive and rehabilitative health care systems and practice, with a view to health maintenance, care and protection through different methods and means and the use of diverse products; plant, animal, metal or otherwise, which does not fall under modern medicine and without prejudice to the provisions of Decree Law No. (18) for the year 1997 on regulating the profession of pharmacy and pharmaceutical centers.

**Fields of alternative and complementary medicine:** Works and disciplines set out in the annexes attached to this Resolution.

**Health institution:** Any non-governmental facility licensed to practice and deliver health services related to alternative and complementary medicine, subject to the supervision and control of the Authority, including, for example, the hospitals, centers, clinics and other units of complementary and alternative medicine.

**Practitioner:** The person licensed to practice complementary and alternative medicine.

**Medical disposable:** Any medical product that comes into direct contact with the patient for the purpose of screening, diagnosis or treatment, consistently to the provisions of the applicable laws in the Kingdom, in particular Decree Law No. (2) for the year 1987 on non-physicians and pharmacists practicing auxiliary medical professions, and Decree Law No. (7) for the year 1989 on practicing medicine, dentistry, and Legislative Decree No. (18 ) for the year 1997, on regulation of the profession of pharmacy and pharmaceutical centers.

### **Article II**

## **Physicians practicing complementary and alternative medicine fields**

Physicians licensed to practice medicine shall not practice any of the alternative and complementary medicine fields unless after obtaining a written permission from the Authority, to be valid for a period similar to that of the license to practice medicine, renewable upon meeting the requirements established in accordance with the provisions of this Resolution. The said license shall be recorded in the register in accordance with the specific classification given in Article (4) of this Resolution, in accordance with the disciplines of complementary and alternative medicine provided for in Appendix No. 2 attached to this Resolution.

## **Article III**

### **Permission Procedures**

Applications submission and review, as well as any appeal on the decisions made upon them, shall be according to the procedures and deadlines set forth in Articles (11, 12, 13) of this Regulation.

## **Article IV**

### **Classification of the physicians practicing the fields of complementary and alternative medicine**

Medical physicians in the complementary and alternative medicine fields shall be classified as follows:

1. Physician specialized in complementary and alternative medicine.
2. Medical practitioner for complementary and alternative medicine.

## **Article V**

### **Physicians Technical Powers**

Specialized physicians may practice the systems and practices in the fields of alternative and complementary medicine, including the provision of medical advice, visiting the patients and all examination, diagnosis, drugs' prescriptions or treatment, as well as the surgical procedure and other regulations or practices, in accordance with official permission from the Authority for these practices in accordance with the provisions of this Resolution.

## **Article VI**

In practicing their activities, Physicians specialized in the fields of alternative and complementary medicine shall be subject to the provisions of Decree Law

No. (7) for the year 1989 on practicing medicine and dentistry, as well as the provisions of this Resolution.

## **Article VII**

### **License to practice of complementary and alternative medicine fields**

Subject to the provisions of Decree Law No. (7) for the year 1989 on practicing medicine and dentistry, and Decree Law No. (18) for the year 1997 on regulating the profession of pharmacy and pharmacy centers, non-physicians shall not practice any of the auxiliary technical works in the fields of complementary and alternative medicine unless after obtaining a license to do so, issued by the Authority for non-physicians, in accordance with the procedures, terms and conditions set forth in this Resolution.

## **Article VIII**

### **Licensee conditions**

Taking into account the requirements necessary for the license as set forth in Decree Law No. (2) for the year 1987 on non-physicians practicing auxiliary medical professions, the licensee to practice the complementary and alternative medical fields shall have to meet the following general conditions:

- 1) To be a holder of a specialized qualification in complementary and alternative medicine from a university, college or institute recognized or recorded in the medical or health authorities of the state, where the applicant has studied. The qualification shall not be adopted unless its accredited and authenticated by the competent official authorities.
- 2) To enjoy adequate health fitness to practice the profession.
- 3) To have a clean record of sentences for moral turpitude or dishonesty, unless his innocence is proved or an amnesty decision has been issued for him by the competent authorities.
- 4) To have attended a course on first aid.

The non-Bahraini practitioners of complementary and alternative medicine shall have to acquire experience of no less than two years after the academic qualification.

## **Article IX**

### **Classification of the licenses to practice complementary and alternative medicine fields**

The licenses for alternative and complementary medicine fields shall be classified according to the academic qualification held by the applicant, into the following categories:

- 1) Practitioner of complementary and alternative medicine.
- 2) Technician of complementary and alternative medicine.

## **Article X**

### **License Term**

Granting the license to practice in the fields of complementary and alternative medicine shall be according to the categories provided for in Article (IX) of this Resolution for a period of three years, renewable for similar periods, in accordance with the disciplines of the alternative or complementary licenses provided for in Annex (3) attached to this Resolution.

## **Article XI**

### **License application and documents**

Any person who wishes to obtain a license to practice complementary and alternative medicine shall submit a request to the competent body in the Authority, accompanied by the following documents:

- 1) Obtained scientific degrees legally certified by the competent official authorities.
- 2) Certificates and official documents that indicate acquiring the practical training after graduation, stating the name and address of the organization where the training has been held and according to the procedures of the Authority.
- 3) Valid first aid course certificate.
- 4) Photocopy of the passport and ID.
- 5) Two recent personal photographs 4 x 6 cm.
- 6) Certificate of medical fitness issued by the competent medical committee.
- 7) Receipt of the fees paid to issue the license.

## **Article XII**

### **License applications examinations**

An advisory committee shall be established to include specialized technical elements to consider the applications for licenses for practicing complementary and alternative medicine fields, referred by the CEO, to discuss the availability of the conditions required by law to grant such license. The said committee

may validate and evaluate the submitted scientific certificates and ensure the professional competence of the applicant through his meeting the requirements of the technical evaluation. The CEO shall issue a resolution for the formation of the committee, the dates of its meetings and its work procedures, after the approval of the Council.

The committee shall decide on the license application and issue its decision thereon within thirty days from the date of application. In case of rejecting the application, such rejection shall be reasoned and the competent authority shall notify the applicant with the decision of the committee.

### **Article XIII**

#### **Appeal on the decisions**

Any applicant whose application is rejected shall administratively appeal to the Authority within thirty days from the date of being notified of the rejection and the Authority's decision regarding the appeal shall be final.

### **Article XIV**

#### **Register of the licensees**

A register shall be established in the competent department in the Authority to record the licensees to practice complementary and alternative medicine fields, each category separately, to include all the data set forth in this Resolution, as well as indicating any change or modification that may occurred therein. The register shall include restriction on all the data and information of the licensee, particularly the following data:

- 1) Registration number in the register.
- 2) Name, surname, age, nationality, ID number, and means of communication of the practitioner.
- 3) Academic qualifications and the date of acquiring them, in addition to completing the relevant form.
- 4) The data on previous experiences and completing the relevant professional category reference form.
- 5) Place of work and residence.
- 6) Number and date of granting the license.
- 7) Number and date of granting of the previous license and completing the form of validating the practicing license.
- 8) Any other data determined by the Supreme Council of Health.

### **Article (XV)**

## **Duties of the licensee to engage in complementary and alternative medicine fields**

The licensee shall comply with the following:

- 1) Cooperation with the colleagues in the performance of his professional duties, which would achieve patients' healing or alleviating their pain.
- 2) Indicating in all correspondence, books or any document of his institution or promotion to himself, his license category and type of specialization.
- 3) Notify the Authority of any changes that may occur to the place of residence, or the place where he carries on his specialty, for the Authority to conduct its affairs in the place according to the provisions of this Resolution.
- 4) Prepare a special register for the patients record according to the relevant requirements.
- 5) Prepare a special file for each patient to include his personal data, medical history, laboratory tests and analyzes, diagnosis and the treatment prescribed for him; all to be recorded by the treating physician at each visit, accompanied by his signature and stamp.

## **Article XVI**

The licensee shall preserve the dignity of his profession in accordance with professional custom mainstream in the Kingdom and shall adopt behaviors consistent with due respect to his career. In particular, the licensee shall not do any of the following acts:

- 1) Failure to respond to any correspondence directed to him by the Authority and any non-response shall be considered an unjustifiable delay in response.
- 2) Keep to himself any original document of any patients or remove them from the registers assigned to keep them, for the purpose of extortion or compromise.
- 3) Combine with his career any other work performed personally or by proxy that could harm the fulfillment of his professional duties or not in conformity with its requirements.
- 4) Collect, personally or by proxy, funds for any individual or body, distribute leaflets or collect signatures, for illegal purposes.
- 5) Change the category of the license or add a statement thereto, in any way, unless after obtaining the approval of the Authority.
- 6) State any explicit medical or therapeutic claims about herbs or plants or claim that there are no side effects thereto, unless a scientific evidence is available.

- 7) Import, export or sale of medicinal plants, plant drugs, hormonal herbal substances, sexual stimulants or other types of medical and therapeutic efficacy, in addition to importing or sale of narcotic herbs or plants or include narcotizing elements, as well as other materials prohibited and banned globally or locally, according to what is adopted by the Authority.
- 8) Promotion or advertising for himself, for his facility or for a complementary and alternative medicine product by any means of media and advertising media, unless with a permission by the Authority based on the rules established by the Council.

### **Article XVII**

Practitioners of complementary and alternative medicine fields, in the event of breaching any of the professional duties and obligations, shall be subject to the Authority's established disciplinary committees, each according to his category, and subject to the same procedures applicable to all practitioners.

### **Article XVIII**

#### **General controls to practice complementary and alternative medicine fields**

Practicing complementary and alternative medicine fields shall be within the limits of the licensed specialization and according to the controls and powers set forth in the issued permit or license, through one of the health institutions subject to the provisions of this Resolution.

### **Article XIX**

The complementary and alternative medicine fields' practitioners shall notify the Authority with the address of the institution where the activity shall be practiced prior to initiating their professional responsibilities, by a registered letter addressed by the practitioners to the Authority, as well as prior to changing the workplace.

### **Article XX**

Without prejudice to the powers delegated to the physicians according to the provisions of Decree Law No. (7) for the year 1989 on practicing medicine and dentistry, it is prohibited for the parties concerned in this Resolution to undertake any of the following powers:

- 1) Subscription and dispense of pharmaceuticals or injections that can be dispensed only by a prescription.
- 2) Conducting surgeries.

- 3) Withdraw or liquefy blood, with the exception of those licensed to do cupping therapy and to the extent allowed, provided taking all precautions and the provision of all medically adopted means to prevent the transmission of infection among the patients, where contaminated blood or blood derivatives are a potential source of transmission.
- 4) Amendment or addition to a prescription by a physician.
- 5) Treatment of patients with acute or serious medical conditions, or the emergency situations that require transferring to emergency departments in the hospitals, in addition to totally prohibiting treatment of infectious diseases.
- 6) Mixing, packaging or selling medical herbs or plants in any pharmaceutical form; pills or capsules, or in the form of syrup and the like of pharmaceutical forms intended for consumption.

## **Article XXI**

### **Technical controls for the physicians' practice in complementary and alternative medicine fields**

For the physicians classified in Article (4) of this Resolution, taking into account the provisions of Decree Law No. (7) for the year 1989 on practicing medicine and dentistry, consistently with the powers vested in the physicians as stipulated in the law referred to, the physician shall practice the authorized complementary and alternative medicine fields with the necessary professional accuracy and honesty, in accordance with the powers included in the issued license, in accordance with the following controls:

- 1) Evaluate and diagnose patient's status based on his medical history, according to the clinical symptoms per modern medicine perspective and based on specialization of the physician. If needed, he may request to conduct some tests or analyzes appropriate for the case.
- 2) Diagnosis of patients' cases; each within his scope of specialization and according to the science and principles of the various disciplines of complementary and alternative Medicine.
- 3) Referring the patients to hospitals or clinics whenever needed.
- 4) Prescription of medicines and pharmaceuticals of alternative and complementary medicine fields as registered and licensed by the Authority.
- 5) Request to conduct laboratory tests and radiological images, according to his specialty, whenever needed.

## **Article XXII**

## **Technical controls for non-physicians practicing complementary and alternative medicine fields**

The licensee shall conduct his activities according to the following controls:

- 1) Practicing his specialty within the scope and limits of the license issued to him.
- 2) Refrain from any practices that would threaten the lives of the patients or expose them to danger.
- 3) Patients' referral to hospitals or clinics whenever needed.
- 4) Adherence to prescribing the medical products of the complementary and alternative medicine that can be dispensed without prescriptions, but registered and licensed by the Authority

### **Article XXIII**

In case the licensee suffered illness or disability that renders him, health wise, unfitting to shoulder the burdens of his specialization requirements, partially or completely, he and the institution where he practices shall jointly notify the Authority with the same and shall not practice until his condition is resolved.

The Authority shall, as the case may be, determine either specifying the activities he can practice or preventing him temporarily from practice if the illness befell him is temporarily or expected to heal. In case his condition prevents his ability to fully carry the burdens of his specialization or to meet the minimum professional competence required, his name shall be removed from the licensing records after the cancellation of his license.

### **Article XXIV**

#### **Health institutions licensing procedures**

It is prohibited to establishment or run any health institutions to practice in the complementary and alternative medicine fields without a license from the Authority. These institutions shall be subject to the requirements set forth in this Resolution, as well as to the provisions of Law No. (21) for the year 2015 on private health institutions and all decisions issued for its implementation.

### **Article XXV**

#### **Submission of the application and relevant documents**

License application shall be submitted to the Health Institutions Organization Office at the Authority, in the form prepared for the purpose, accompanied by the following documents:

- 1) Receipt of the payment of the prescribed fee.

- 2) Diagram of the institution location and another geometric layout for its structure, issued by an approved engineering office, specifying the names and measurements of the rooms.
- 3) List of medical supplies to be used.
- 4) A statement of the number of the medical, technical and administrative staff members of the institution, with a brief description of their scientific and technical qualifications and experience.
- 5) A statement of the type of the institution to be licensed, specifying the alternative and complementary medicine field(s) to be practiced therein.
- 6) Specify the managing director in charge of the institution.
- 7) Specify the technical manager of the institution.

## **Article XXVI**

### **Term of License**

License term shall be one year renewable for similar periods, provided submitting the renewal request at least one month before expiration and after the payment of the fee determined for the purpose.

The Authority shall impose a delay fine of double the fee for license renewal in case of non-renewal during the scheduled dates, within three months from the deadline.

In all cases, the necessary conditions to obtain the license shall continue starting the renewal request.

## **Article XXVII**

### **Classification of health institutions**

Health institutions Licensed to provide complementary and alternative medicine services shall be classified into the following categories:

- 1) Hospital: Provides all complementary and alternative medicine services, including patients' hospitalization.
- 2) Center: Includes more than one clinic in a single complementary and alternative medicine field or more than one specialization.
- 3) Clinic: To practice one of the complementary and alternative medicine fields, to be managed only by physicians.
- 4) Unit: To practice one of the complementary and alternative medicine fields, to be managed by a practitioner or a technician in the disciplines that can be practiced without the supervision of a practitioner.

## **Article XXVIII**

## **Health Institutions Register**

A special register shall be established in the Authority for each licenses' categories subject to the provisions of this Resolution, to record the licenses. The register shall include the following data:

- 1) Institution name and address.
- 2) Owner's name.
- 3) Name of the director in charge.
- 4) Name of the technical manager.
- 5) Number and date of the institution's license.
- 6) Any other information specified by the Authority.

## **Article XXIX**

### **Controls on the use of health institution**

The health institution shall be used for the licensed purpose and in accordance with the issued license. The licensee shall be held accountable for that and he shall prohibited to do any of the following:

- 1) Any action that would render the health institution in direct or indirect contact with a private residence.
- 2) Transfer the health institution from its place to another without obtaining a prior approval from the Authority.
- 3) Make any internal adjustments in the health institution without a prior approval from the Authority or in violation of the engineering license issued with the same.
- 4) Start liquidating the health institution before notifying the Authority by at least two weeks or in the absence of the persons appointed by the Authority to attend the liquidation proceedings.
- 5) Conduct any inventory of drugs, or herbs or medical items in the health institution without notifying the Authority before starting or completing that inventory in the absence of the person appointed by the Authority to attend these procedures.
- 6) Permit the use of the health institution, or any part thereof, for a purpose inconsistent with the law.

## **Article XXX**

### **Complementary and Alternative Medicine Products and Tools**

Without prejudice to the provisions of Decree Law No. 18 for the year 1997 on regulating the the profession of pharmacy and pharmacy centers, no institution shall be established or prohibited, regardless its form or size, for the purpose of

manufacture, production, processing, distribution or circulation of any materials, products, devices or tools that can be used for the purpose of alternative and complementary medicine fields, unless after obtaining a license from the concerned authorities, upon the approval of the Authority.

The license application shall be submitted to the Authority enclosing all the documents and data, in particular those relating to the nature of the project, the products that will be manufactured, the active substances used in the composition of the products, the safe means to store them and any other data the Authority deems necessary to meet.

The application shall be decided within thirty days from the date of submission. In case of rejection, it shall be reasoned and the elapse of thirty days without a response shall be deemed a rejection.

The applicant whose application is rejected may appeal to the Council within thirty days from the date of notifying him with the rejection or as of the date it is deemed rejected. The Council's decision on the appeal shall be issued within thirty days from the date of submission. The elapse of the above thirty days without a response to the appeal shall be deemed a rejection thereof.

#### **Article XXXI**

Without prejudice to the provisions of Decree Law No. 18 for the year 1997 on regulating the profession of pharmacy and pharmacy centers, import or export of any alternative and complementary medicine products, tools or devices that can be used for any alternative and complementary medicine purpose, shall be prohibited, even if it is in the form of free medical samples except via the institutions legally licensed for the purpose and upon prior approval of the Authority, along with submitting the good production certificate, the product license certificate, form of the product data card, the relevant laboratory test from an accredited laboratory or any other data the Authority deems necessary.

#### **Article XXXII**

Exception from Article (31) of this Resolution, the Authority may allow the individuals, at their personal responsibility, to import products that do not need a prescription or devices or tools used for the treatment by alternative and complementary medicine for personal use, whether it be in the form of packages or others, with the following conditions:

- 1) The existence of accredited medical reports stating the need to the imported products.
- 2) The quantities to be imported are limited and commensurate with the period specified for the medication.

- 3) The containers are well sealed and shipped in a manner that preserves the their therapeutic effectiveness and suitability for human use. External labels shall state the required pharmacological data.

#### **Article XXXIII**

##### **Technical specifications and occupational safety and health requirements in Complementary and Alternative Medicine institutions**

It may not be a license to open a health institution of the institutions provided for in Article (27) of this resolution, or consider re-licensing renewal only if they meet specifications and requirements and technical equipment, as well as safety and professional health requirements set forth in Annex (4) attached to this Resolution.

#### **Article XXXIV**

##### **Transitional Provisions**

The provisions of this Resolution apply to the complementary and alternative medicine private institutions. The owners of the existing institutions are required to submit applications to adjust the status of their institutions and their licensure in accordance with the provisions of this resolution, within a period not exceeding six months from the date of this Resolution.

#### **Article XXXV**

The practitioners of complementary and alternative medicine fields, whose practice is proved to be without a license at the time of issuing this Resolution, shall adjust their status in a period not exceeding six months from the date of publishing this Resolution, after which they shall not practice unless after obtaining a license from the Authority, in accordance with the provisions and regulations set forth in this Resolution.
