Definitions:

Authority: National Health Regulatory Authority.

Continuing Professional Development (CPD): A range of learning activities through which healthcare professionals maintain and develop their knowledge and skills throughout their career to ensure that they retain their capacity to practice safely, effectively and legally within their evolving scope of practice. CPD is also referred to as Continuing Medical Education (CME).

Credentialing: A process whereby specific licensing title is assigned to a healthcare professional based on recognized and accredited qualifications, training, experience and current practice.

Experience: Hands on clinical experience gained by a licensed healthcare professional during a salaried employment/contractual period and it excludes volunteer jobs, observer-ship, or clinical attachment.

Fitness to practice: A status where the healthcare professional is able to consistently demonstrate ability to practice without any impediments i.e. physical or others.

Discontinuity of Practice: A defined period of discontinuation of clinical experience/ practice.

Certificate of Good Standing (CGS): A certificate showing evidence that the healthcare professional is competent to practice the profession, has not been found guilty of unprofessional conduct, and that there are no pending or previous disciplinary orders or criminal proceedings against the healthcare professional.

Healthcare Profession: A field of healthcare recognized by the Authority.

Healthcare Professional: A person who by education, training, certification and licensure is qualified to provide healthcare services.

Internship: A period of supervised structured clinical practice pursued by graduates of healthcare programs to consolidate the knowledge & skill gained during their recognized college study provided the internship is done in a university affiliated/ accredited educational Hospital/ Center.

License: A permission granted by the authority to practice a healthcare profession.

Licensing: A process of granting a legally protected professional title by the authority.

Licensure Examination: Licensure is a process every dentist must go through at least once during his/her professional life to practice dentistry.

Primary Source Verification: A process of validating documents required for licensure from the issuing organization.

Qualification: An educational evidence granted by universities, colleges, academic institutes or schools that are nationally accredited or formally recognized.

Re-Categorization: The process of application and assessment for the issuing of a license from one license category to a higher category, or from one specialization to another. This is usually following assessment by a NHRA dental advisory committee.

Tier: A term used to indicate a category of post graduate qualifications for physicians and dentists based on the level and the presence of the following:

- Structure of the academic program
- Training governance
- Training curriculum **when needed**
- Entry level examination
- Defined program competency framework
- Competency based assessment during training
- Hands-on training and independent practice
- Progression of responsibility during training and measurable outcomes at each level
- Final certifying exam
- Independence to practice post qualification
- Requirement to maintain the licensing/ qualification

Acronyms:

BDLE: Bahrain Dental Licensure Examination

BLS: Basic Life Support

BDS: Bachelor of Dental Surgery

GDP: General Dental Practitioner

HEC: Higher Education Council

MOE: Ministry of Education

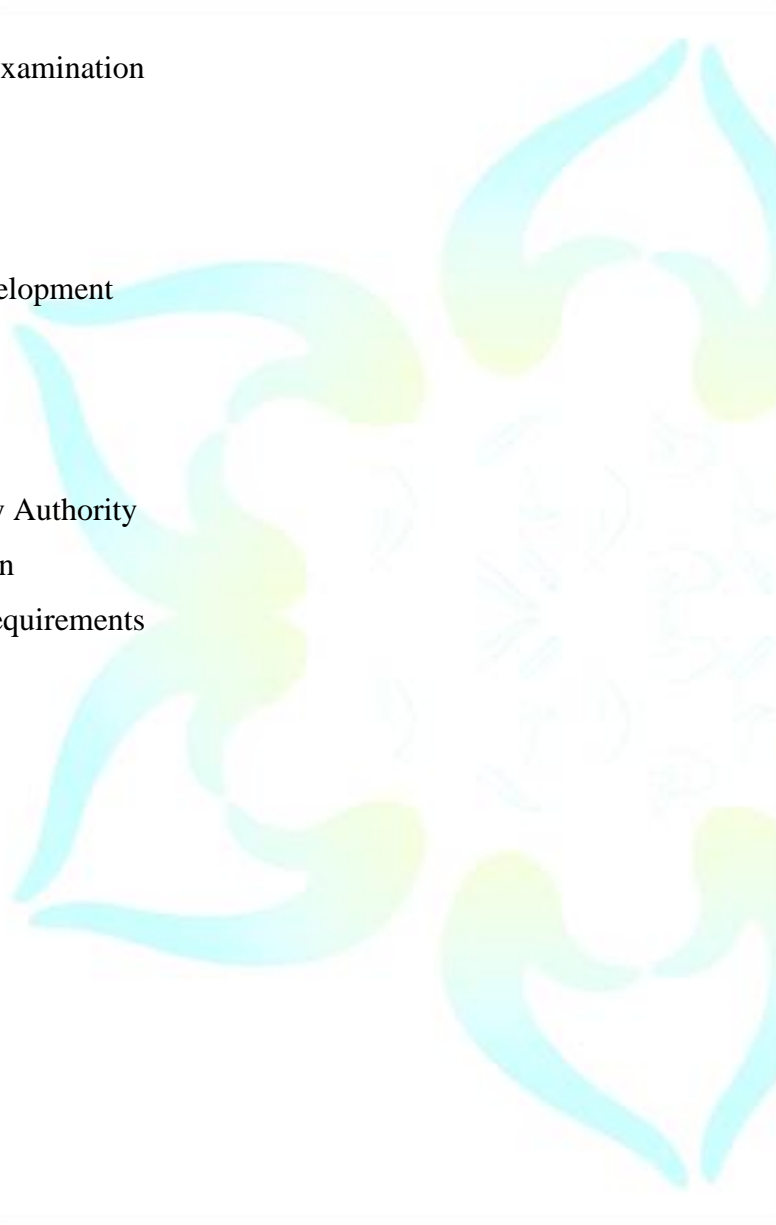

NHRA: National Health Regulatory Authority

NSE: NHRA Specialist Examination

PQR: Professional Qualification Requirements

PhD: Doctor of philosophy

SCH: Supreme Council of Health

Preface:

The Supreme Council of Health (SCH) in the Kingdom of Bahrain is pleased to present the revised dentists PQR. The first dentists PQR was published on March 17th, 2017 as the Healthcare Professional Licensing Standards: Dentists. This 2021 revision was necessary to keep up with global changes and progressions in dental healthcare, to ensure the quality of services provided for the public in the Kingdom of Bahrain.

This document applies to all dental healthcare facilities both in the governmental and in the private sectors. It is to standardize assessment of documents submitted by applicants within their geographical jurisdiction to ensure safe and competent delivery of services. Moreover, it places an emphasis on educational standards, clinical experience, and licensure requirements for healthcare professionals to be licensed to practice safely in the Kingdom of Bahrain and in accordance with Bahrain laws and benchmarked international best practices.

The SCH would like to acknowledge the efforts of the Dental Advisory Committee members who have taken the time to revise the whole document and update it and would like to thank them for their dedicated efforts and assistance.

1. Licensure General Requirements

- All applicants must fulfill all the following requirements in order to qualify for licensure
- Non-Bahraini dentist applying for a license must be no more than 65 years of age – Certain cases may be exempted by the SCH.

1.1 Educational Qualifications

- Academic qualifications will be evaluated by NHRA.
- Qualifications must be issued by institutions/ colleges recognized in home country.
- Dental Schools should be listed in the ‘World Directory of Medical Schools’.
- At the entry level, minimum qualification requirement is high school certificate as per country specific education.
- Professional Qualifications are evaluated in accordance to the following criteria:
 - The country and institution from which the qualification was awarded.
 - The level of national categorization of the qualification.
 - The duration and content of study, and the presence of clinical practice/ practical training.
 - Qualifications acquired through honorary nature, correspondence or distance learning are not counted towards the PQR.
- Qualifications not mentioned in this document may be evaluated and reviewed by NHRA which may grant the applicant with the appropriate title.

- Specialty certificates will be accepted with the following conditions and respective tier allocation:
 - Must be obtained after a full-time structured clinical residency program of minimum **three (3) years** course duration.
 - Clinical Master degree of minimum two (2) years of full-time course duration.
 - Clinical PhD of minimum four (3 years) of full-time course duration*.
*Holders of these qualifications must provide proof that at least 70-75% of the program is delivered as supervised clinical training.
- All Tier 1 and 2 qualifications are exempted from NHRA Specialist Examination.
- All Tier 3 qualifications must pass NHRA Specialist Examination.
- Non-Bahraini's must fulfill all the required post-qualification experience prior to applying for a license in the Kingdom of Bahrain.

1.2 Professional Experience

1.2.1: Internship

- All Dentists are required to successfully complete **12 months internship** post- graduation. (Main rotations General Dentistry, Conservative dentistry, Dental Public Health, Endodontics, Oral Surgery, Orthodontics, Pediatric Dentistry, Periodontics, and Prosthodontics)

1.2.2: Experience:

- The applicant's experience must be relevant to the category applied for, and must have been accomplished in an appropriate setting licensed by the professional regulatory and licensing authority in the country of practice.
- Bahraini nationals, new graduates are exempted from experience requirements for the basic entry level.
- All other applicants are required to fulfill experience as per their relevant titles according to the PQR

- Note: for any required licensed work experience , a continuous recent 6 months of work experience (within the last 3 years) is mandatory .

1.3 Professional License and Good Standing Status

- The applicant must be registered and have a valid professional license to practice, or registration from home country and/or country of last employment.
- The applicant must provide evidence of meeting the minimum required experiences for the applied title.
- Certificate of Good Standing (CGS) must meet the following requirements:
 - Valid and not older than **six (6) months** at the time of application for licensure
 - Issued by the professional regulatory and licensing authority in the country(s) of last employment.
- NHRA may request more evidence or conduct investigations if deemed necessary to prove the status of good conduct of the healthcare professional.
- The applicant must declare that he/she has never been convicted with any legal cases, medical malpractice during his/her practice of the healthcare profession or he/she is currently under investigation.

1.4 Primary Source Verification

- The documents required for licensing shall be verified directly from the original or primary source.
- These documents include but not limited to: educational qualification(s), experience certificate(s), professional license(s), good standing certificate and/or any other documents deemed necessary by NHRA.

1.5 Bahrain Dental Licensure examination (BDLE)

- All Dentists are required to pass NHRA's BLE in order to obtain the professional license in the Kingdom of Bahrain
- All Dentist should provide proof of successful completion of their internship post- graduation prior to BDLE.
- The validity of licensure examination is five years only.

BDLE Exemption Policy

Only Bahraini or GCC nationals who hold a valid GCC License will be exempted from the licensure examination.

BDLE Attempts

Dentists have a total of Four examination attempts provided the following conditions are adhered to:

- Each Dentist may attempt the examination four consecutive times provided the attempts are done within a maximum of three years from the date of the first attempt.
- Only Bahraini Dentists, who does not pass the exam after the fourth attempt, he/she is required to go through a period of training in a licensed health care facility for a minimum of six months.
- Only Bahraini Dentists, after proof of completion of training, two more consecutive exam attempts may be permitted provided that the attempts are within two years from the date of completion of training.

1.6 NHRA Specialist Examination (NSE):

- All Tier 3 qualification holders must pass an NHRA specialist examination.
- The NSE examination is provided either electronically or by other means including but not limited to written exams, short cases, or interviews.
- Bahraini Dentists applying for a specialist license but who have not completed the required years of experience post-qualification will be required to pass the specialty examination, however they will be not granted specialist license until they complete the required years of experience under supervision of consultant as per this PQR.
- Non-Bahraini Dentists applying for specialist license should complete the required years of experience post qualification to attempt the specialist examination.

NSE Attempts:

Dentists have a total of Four examination attempts provided the following conditions are adhered to:

- Each Dentist may attempt the examination four consecutive times provided the attempts are done within a maximum of three years from the date of the first attempt.
- Only Bahraini Dentist, who does not pass the exam after the fourth attempt, he/she is required to go through a period of training in a licensed Health Facility for a minimum of six months.
- The training should cover the field of specialty only under supervision of a consultant of the same specialty.
- Only Bahraini Dentist, After proof of completion of training, two more consecutive exam attempts may be permitted provided that the attempts are within two years from the date of completion of training.

1.7 Discontinuity of Practice (Gap of Practice)

This section applies to Bahrainis ONLY

- Professionals who discontinue their practice for at least **three (3) years** and opt to be licensed in the Kingdom of Bahrain are required to pass the NHRA licensure assessment as the first step to obtain the license to practice and must undertake the following actions:
 - 1- Apply directly to take the NHRA licensing exam. If passed the first exam attempt, professional will obtain a license to practice and work under the supervision of a licensed professional of the same Speciality for one year.
 - 2- Professional who fails in the first exam attempt will be required to go through CPD credits and a clinical training program and must follow the requirements below:
 - A- All training programs & CPD credits shall be carried out in an approved practice setting by NHRA in:
 - ❖ (6) months of training on a full-time basis (7 hours a day/ 5 days a week)
 - ❖ 100 CME/CPD credits.
 - B- All CPD credits must be related to the practice specialty of the healthcare professional, and according to the CPD-specific requirements of NHRA.
 - C- All applicants are required to complete a training program which shall be determined by NHRA in the specialty field.
 - 3- Applicants after completion of CPD credits, and the clinical training required to re-attempt the NHRA licensure exam (according to the number of attempts NHRA exam policy) if passed the re-attempt exam professional will obtain a license to practice and work under the supervision of a licensed professional of the same Speciality for one year.
- Applicants are required to provide Health fitness certificate.
- **Non-Bahraini Nationals** will not be able to apply for a license (as a new profession license) if they have a gap of clinical practice for (3) years and above.

2. Renewal of Licenses

- Dentists must accumulate a minimum of 30 CME/CPD hours annually.
- CME/CPD must be relevant to the field of the specialty
- CME/CPD hours should be submitted annually to NHRA even if the license is renewed for more than one year.
- Bahraini dentists who are issued licenses without the specification of a facility must:
 - Renew their license for one year at a time
 - Prove the continuity of their practice (must provide proof of a minimum of one full year of practice during the three years (continuous or intermittent)
 - Failure to provide continuity of practice will lead to the dentist being considered in a gap of practice and will need to fulfill the discontinuity of practice requirements as per the requirements of this PQR prior to their license being renewed.
- License can be renewed up to a maximum of 3 years each time.
- Health fitness certificate is required every three years at the time of license renewal

3. License re-categorization

- Dentists may apply for a re-categorization of their license supported by the following documents:
 - A formal competency letter from the allocated clinical supervisor.
 - Additional qualification obtained.
 - Verification of the qualification if obtained outside kingdom of Bahrain.
- All re-categorization applications must fulfill the years of experience required per tier.

4. General Regulatory Items

- Health care facilities should not employ a health care professional at a higher category than that given by NHRA.
- License categories are independent from employment grade, titles, and vacancies in the facility.
- All healthcare professionals should practice within their specific scope of practice framework.
- Non-Bahraini wives married to Bahraini Nationals will be treated as Bahraini regarding the policies of experience, number of examination attempts, and discontinuity of practice.
- All professionals holding administrative, academic, and other non-clinical positions will not be licensed by NHRA unless they prove continuity of clinical practice.
- For dentists who hold Tier Two qualifications and go through a structured fellowship training of no less than one year, the period of the fellowship will be calculated as part of the clinical experience required for that tier for the general specialty.
- Private dental clinics may be operated by a dentist who holds a general license and has a minimum of five years of clinical experience post-internship.
- NHRA reserves the right to re-evaluate any healthcare professional should the need arise.
- Bahraini's who are issued licenses without the specification of a facility must:
 - Apply for a transfer of their license as soon as they obtain an offer letter
 - They should not start their practice in the prospective facility except after the transfer of the license
- Performing surgical/dental interventions under general anesthesia must be ONLY under the supervision of a consultant.
- For recategorization requests for Bahrainis and Bahrain residents who started the higher educational programs before this PQR was approved, the old PQR will be applied for their licenses recategorization.
- This PQR shall be reviewed once every three years.

Qualification and Experience Requirements for dental Licensure

Hospital Title	License Category	Qualifications	Experience & Other Requirements		
Intern	No license or registration is required for this category	Bachelor's degree in Dentistry/Dental Surgery or equivalent qualification from an accredited and recognised institution	No Experience Required		
Resident	General License	Bachelor's degree in Dentistry/Dental Surgery or equivalent qualification from an accredited and recognised institution	For Bahrainis , successful completion of internship and passing BDLE licensure examination [<i>note: A General Dental License is reserved for Bahrainis only</i>]

Prosthodontics
Restorative Dentistry
Special needs Dentistry

Visiting Dentists:

Health care facilities may apply for dentists to visit their institution and provide health care services to patients within a specified period of time provided the following conditions are met:

1. Full application form and required documents are submitted to NHRA at least two week prior to the scheduled visit.
2. Dentist must hold one of the recognized qualifications mentions within this PQR and be classified as a consultant by NHRA.
3. In some cases, visiting dentists who do not fulfill the categorization criteria of a consultant may be granted a visiting license if they are categorized as a specialist and in certain conditions for example:
 - a) If the specialty needed is rare in kingdom of Bahrain.
 - b) If there is a paucity in the number of consultants in a certain specialty in kingdom of Bahrain
 - c) If the visiting dentist has been requested to share his clinical and academic experience and has distinctive work such as obtaining a patented technology in dentistry and such cases will be studied individually.
4. The NHRA may grant visiting licenses to any dentist based on the review of individual applications.
