ABOUT THE CONFERENCE

The National Health Regulatory Authority, empowered by law to regulate the provision of all healthcare services in the Kingdom of Bahrain, is proud to announce its 4th annual Health Regulatory Conference and Exhibition. Scheduled between 17-19 October 2024, at the Gulf Convention Centre, Gulf Hotel in the Kingdom of Bahrain.

Following the resounding success of the 3rd Edition in 2023, which saw over 800 participants from various sectors within the healthcare industry in Bahrain and the GCC region, this conference aims to further explore regional and global healthcare initiatives.

The Exhibition Floorplan has been designed to accommodate an expanded and exclusive space for sponsors, partners, and exhibitors. With the growing demand observed since the 2022 edition, this year's Exhibition will span across two halls, serving as a dedicated business hub and exclusive arena for B-2-B and B-2-C meetings.

WELCOME MESSAGE CONFERENCE PRESIDENT

Dear Colleagues,

It is with immense pleasure that I extend a warm welcome to each esteemed attendee of the 4th NHRA-Bahrain Health Regulatory Conference and Exhibition.

Over the past six months, the National Health Regulatory Authority has worked diligently to strengthen our regulatory landscape. By developing a framework that aligns with international standards, we are committed to providing exceptional healthcare services and establishing ourselves as a key global player.

I am excited to announce the Fourth edition of the NHRA- Bahrain Health Regulatory Conference and Exhibition, which will showcase Bahrain's high-quality healthcare services. With a distinguished lineup of speakers and engaging educational programs, our goal is to drive innovation and excellence in healthcare on a global scale.

This conference is particularly significant as we focus on mapping and showcasing Bahrain as a premium medical tourism destination. With its rich culture, top-notch medical facilities, and a dedication to excellence, Bahrain exemplifies what can be achieved through regulatory infrastructure and innovation.

We see this conference as an opportunity to foster partnerships and collaboration within the medical tourism community, paving the way for Bahrain to excel in global healthcare.

I extend my best wishes to all participants, sponsors, and attendees for a successful and rewarding conference experience.

Yours Sincerely,

H.E. Dr. Ahmed Al Ansari

Chief Executive Officer – NHRA

Conference President

WELCOME MESSAGE

SCIENTIFIC COMMITTEE CHAIRPERSON

On behalf of the Scientific Committee, it is my utmost pleasure and honour to welcome you all to the beautiful island of Bahrain and to the 4th Edition of NHRA-Bahrain Regulatory Conference and Exhibition. This year, our focus is on advancing Bahrain's position as a premier destination for medical tourism.

Throughout the conference, we will explore the intricate relationship between healthcare regulations and the burgeoning field of medical tourism.

The scientific committee is gearing up to prepare a high-quality educational program that will explore the intricate relationship between healthcare regulations and the burgeoning field of medical tourism. We have curated a series of discussions and presentations led by a panel of national and international experts who will keep you engaged and enlightened on key topics that will allow you to navigate the regulatory channels of medical tourism.

I am confident that this conference will provide ample opportunities for learning, exchanging ideas, and building valuable networks, leaving you eager for more.

CONFERENCE OBJECTIVES

The conference main objectives are the followings:

1. Provide an in-depth understanding of the latest advancements in healthcare regulation and compliance, equipping participants with the knowledge and skills to navigate complex regulatory landscapes effectively.
2. Foster collaboration and networking opportunities among healthcare professionals, policymakers, and industry stakeholders, facilitating the exchange of best practices and innovative ideas to address current and emerging challenges in healthcare regulation and governance.
3. Explore strategies for enhancing patient safety and quality of care within healthcare facilities, fostering a culture of continuous improvement and excellence in healthcare delivery.
4. Examine the intersection of technology and healthcare regulation, with a focus on leveraging digital solutions to streamline regulatory processes and improve overall healthcare outcomes

Yours Sincerely,

Dr. Azhar Naseeb
